Home Irrigation Guide

Home Irrigation .com.au

It's free, fun and easy!

The **Neta Home Irrigation Designer** software takes you through six simple steps to a final home irrigation design. The flexible interface allows you to try several different designs then print out the plans and shopping list, to show you what products you need and in what quantities.

Makes installation easy!

The **Neta Home Irrigation Guide** software provides useful design help and installation details for every product in the Designer.

An A-Z of Home Irrigation products, which shows you which products are best suited to your garden and how to install and use them efficiently. The Guide helps you tailor your final design to optimise water usage and minimise garden labour.

To download your software...

Simply go to www.homeirrigation.com.au and click on the download link and follow the instructions, to download both the **Home Irrigation Designer** and **Home Irrigation Guide** programs for free.

It's easy to install, fun and easy to use and can save you time and money, by helping you water your garden more efficiently.
